***Allowable Subject Matter***

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest a crystal unit which is mounted on a casing step, at which step notches are formed in the blank and at which step there is no vibration portion (opposing electrodes), though a vibration portion exists in an area of reduced thickness of the crystal spaced apart from the notch or notches.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
